# EARTHQUAKE ROCKS ITALY; 200 DEAD

## BELL RINGS ON BOOZE AT MIDNIGHT

### SECTION OF FLORENCE REDUCED TO RUINS; PISA AND VENICE HIT

**Fifteen Distinct Shocks Felt,  
Crumbling Churches and Houses  
---Relief Trains Rushed to Scene  
---Believed Worst Disaster Since  
1895, Say Early Dispatches.**

Rome, June 30.—The earthquake that rocked Northern Italy Sunday has resulted in the worst disaster since 1895.

Details are lacking. Communication between Rome and stricken districts has been interrupted, but victims are reported at Dicomano (18 miles east of Florence) and Dargosa (Florence).

The shocks were felt at Pisa, Venice and elsewhere throughout Northern Italy.

Advices received here estimate that the dead total about 150. Several villages were demolished. The earthquake ravaged a district extending from Florence to Bologna.

Vecchia was the greatest sufferer the number of dead there being estimated at 100, with 2,000 persons rendered homeless.

There were 12 distinct shocks between 5 o'clock in the morning and 6 o'clock last night.

Florence, Italy, June 30.—A severe earthquake rocked Florence and the surrounding country Sunday. Fifteen distinct shocks were felt, lasting from 5 o'clock in the morning until 6 o'clock at night. The old quarter of the town has been reduced to ruins. Estimates place the number of dead at 100.

Trains are bringing assistance and relief supplies from Bologna, Perugia and surrounding cities. The earthquake carried on its work of destruction throughout Tuscany. At Borgo, San Lorenzo, 15 miles from here, a church collapsed and went tumbling down the side of a mountain.

The railway station at Rufina and a number of houses were destroyed. The whole region of Mugello has been shaken by the earthquake, but telegraphic communication has been interrupted and it is impossible to obtain any accurate information regarding loss of life or property.

### Old Quarter is Leveled

About one-quarter of the city of Florence, which has a population of 200,000 lives in the old quarter of the town on the west bank of the river Arno, is reported to have been leveled by the earthquake. The buildings, including many of the historic edifices of Europe, were built in the middle ages. The streets of the old quarter radiate from central squares. They are mostly narrow and winding and lined with rickety buildings centuries old, but which have continued to serve as dwelling places for the poorer classes.

The most famous structure in the old quarter is the Palazzo Pitti, an imposing palace built in 1449 and occupied by the king of Italy on his visits to Florence. It contains many wonderful art treasures. The Santa Maria del Carmine church, a Carmelite monastery, rebuilt in 1782 after a disastrous fire; the Museum of Natural Science and St. Mark's church are all located in the old quarter.

The famous Florence Cathedral, one of the most remarkable buildings in Europe and the Campanile, are located on the east bank of the river, in the newer section of Florence. Apparently they were not seriously damaged by the earthquake.

Florence lies at the foot of the Apennine mountains and is known as "the city of flowers." It has been the mecca of thousands of American tourists, but restrictions on travel imposed by the war and the fact that the tourist season virtually ends in the middle of June makes it appear unlikely that many Americans were in the city when it was rocked by earthquakes Sunday.

### PEACE TREATY IS ATTACKED

**Proclamation Issued in Berlin  
Says Terms Are "Un-  
fulfillable."**

By ALFRED G. ANDERSON.

Berlin, June 29, via London, June 30.—The peace treaty signed on Saturday at Versailles was attacked in a proclamation issued by the German National People's party here today.

"The battle for German liberty and honor is lost," said the proclamation. "We want this disgrace to remain unforgotten through generation after generation. The peace can create only hatred. The terms are unfulfillable."

The proclamation concluded with the expression that it could never be a "living, true peace."

The German National People's party is made up of Prussian conservatives and represents the old Junker or war clique.

### NEW MARK FOR HOGS

Cleveland, June 30.—Hogs set a new high record on the Cleveland live stock market today when more than 2,000 of the 5,000 receipts of the day were snapped up at \$22.10. This topped previous records by from 10 to 20 cents.

The market was unusually active today, local packers snapping up all offerings. Experienced buyers said the market reflected conditions prevailing all over the country, the demand exceeding the supply. However, they express the opinion that tomorrow receipts are unusually light to-morrow the record would stand for the week.

### "KILL" APPROPRIATION

Washington, June 30.—The senate and house conferees on the army bill "killed" the appropriation for the Dayton-Wright field which the house made \$3,260,000 and the senate reduced to \$2,650,000. As reported by the conferees to both branches the bill does not make any provision for the Dayton-Wright field. The bill was to be finally acted on by the senate and house today.

### ROBBER LOOTS REFRIGERATORS AND FRIGHTENS PRETTY GIRLS

**Tall American Terrorizes The  
Residents in Avondale  
Street District.**

**TRIES TO ENTER HOUSES**

**Also Makes Attempt to Burglarize Barth Confectionery.**

A tall American, dubbed "the Refrigerator Bandit" by residents of the Avondale street district, has been terrorizing the neighborhood for several days, chasing pretty girls, living on food stolen from ice boxes and attempting in several instances to force his way into homes and stores after more valuable plunder.

Here are the names of some of the victims:

Councilman George Smith, Avondale street—Refrigerator robbed on two occasions.

Harry Smith, Avondale street—Refrigerator robbed.

Robert Hutchinson, Avondale street—Refrigerator robbed.

Charles H. Hall, Avondale street—Refrigerator robbed twice.

Jacob Barth's confectionery, Cadmus street—Attempt made at 3 o'clock Thursday morning to force an entrance.

Persons living in the vicinity reported the burglar away and the occurrence to Mr. Barth when he arrived to open the store shortly after daylight.

Home in Cadmus street, where a young man returning Saturday evening found that a rear door had been "jimmied." The thief apparently had been frightened away by the girl as she entered the front door and lighted the gas in the front room.

Two young women returning home in the early evening were approached near the Northside chapel by a stranger in an insulting manner. The girls screamed and the stranger fled.

The tall man blamed for all these depredations sometimes wears a hat and sometimes a cap. Once he was seen to dodge into an alley and switch from hat to cap. He followed Mr. and Mrs. Barth home one evening and sat for a long time on the street curb. Sometimes he is seen wearing a white shirt and sometimes a blue one.

The police have been notified and they have secured clues which they hope will lead to the arrest and conviction of the "bandit."

**Bombard Soviet Headquarters.**

London, June 30.—Monitors bombarded the soviet headquarters in Bulgaria Sunday, said a Geneva dispatch to the Central News. Gallows were erected in the public parks and leaders of the revolt against the soviet government were publicly executed.

**Thieves Loot In East End**

**Steal \$50 in Cash and Tobacco From Pool Room.**

Gaining entrance through the rear of the store room, a man, thought to have been disguised in woman's apparel, rifled the cash register of the Reible and Kane pool room in Mulberry street, East End, Monday morning about 12:30 o'clock. The thief secured \$4.50 in cash, money pennies, and cigarettes and tobacco valued at approximately \$45.

It is stated that an East End man, who passed the pool room at the time, observed the actions of a person in the interior of the establishment. The police were notified of the robbery when the proprietors opened for business Monday morning and discovered their loss.

### PRETTY BRIDE OF U. S. NAVY OFFICER

Mrs. Robert Allen Dyer, III.

Mrs. Robert Allen Dyer, III, was formerly Miss Olga Parodi, of Gibraltar. She was married recently to Lieut. Dyer of the U. S. destroyer service. The couple have been honeymooning in Washington and Annapolis.

### AMERICANS AND FRENCH CLASH- RIOT AT BREST

**Several French Marines Are  
Wounded; Yanks Also  
Injured.**

**M. P.'S ARE CALLED OUT**

**Crowd, Armed With Missiles,  
Attempted to Stone  
Americans.**

Brest, June 30.—Several French marines were wounded and a number of American marines were injured in a riot which broke out here last night.

French marines were ordered from the streets of the city. The rioting followed a brawl between French and American marines.

When the fighting began American military police were called out to restore order. They fired their revolvers into the air in an effort to intimidate the mob, but with little success.

At the height of the trouble a crowd armed with missiles marched through the streets and attempted to stone Americans.

Later in the night another mob hunted through hotels and private houses, declaring they were searching for Americans.

### POLICE PUT BAN ON TORPEDOES HERE

Chief of Police McDermott Monday afternoon announced that the ban on the discharge of torpedoes on the street, against which many complaints have been made.

One report of a girl being burned by the throwing of torpedoes was made to the police.

The state law prohibits the use of the torpedo, and the police say offenders will be arrested.

### J. BARLEYCORN MAKING FIGHT FOR RESPITE AS END NEARS

**Will Not Give Up The Ghost  
Without a Final  
Struggle.**

**EVE OF PROHIBITION**

**Enforcement Will Not Be Enacted Within Two Weeks.**

### BULLETIN

Baltimore, June 30.—United States District Attorney Samuel K. Dennis of Baltimore, ruled today that saloons may remain open after midnight and until further notice for the sale of 2.75 beer and light wines. He warned, however, that the department of justice would prosecute any one who sold beverages containing alcohol of more than the above amount after the war-time prohibition act went into effect at 12 o'clock midnight. It is believed here that under the ruling of the United States district attorney, most of the saloons in this city will open for business tomorrow, limiting their sales to the prescribed beverages.

Washington, June 30.—That J. Barleycorn, battered and bruised, will not give up the ghost without a struggle was evident from the situation on the eve of war-time prohibition becoming effective. With no enforcement code yet having been enacted and with the president having plainly indicated he would set aside the war-time ban had he the authority, just how "dry" the country will be tomorrow could be made only a matter for conjecture today.

The department of justice was making preparations, it was learned, to prosecute all direct violations of the war-time law reported from tomorrow until the enforcement code is enacted, under the provisions of the original act. By direct violations, it was explained, was meant the sale of spirituous and vinous liquors. It was understood that the department would not be so quick to act in cases involving the sale of beer and will be satisfied to wait until the status of brewed beverages have been determined by the test cases that now are before the courts.

The enforcement code reported out by the house judiciary committee can not be passed within two weeks, it was learned.

### NEW YORK TO CLOSE SPIGOTS

**Liquor Dealers To Meet This  
Afternoon to Decide  
Action.**

New York, June 30.—All the hopes and fears of New York's gay rounders, the gentlemen with perpetual thirsts, common drunks and the man who drinks a can of beer with his evening meal, not to mention the ladies, centered upon this afternoon's meeting of the Retail Liquor Association. For the liquor dealers, after hearing pros and cons from attorneys, will decide whether John Barleycorn shall be executed at midnight, to-night or whether beers and light wines, at least, will continue to flow tomorrow just as if congress had never happened.

Practically all the big New York hotels have decided to obey the law, though they believe that at present there is no effective provision of laws enforcement. They have passed out the word that the beer spigots will turn no more after midnight to-night.

Harry J. Boland.

Harry J. Boland, secretary of the Sinn Fein organization and a member of the national assembly of Ireland, is "advance agent" for Eamonn De Valera, president of the "Irish republic." Boland preceded De Valera to the U. S., arriving about a month ago.

### INQUEST HELD OVER BODY OF G. W. ALLISON

**Coroner's Jury Renders Verdict of "Accidental  
Drowning."**

**VISITED HIS BROTHER**

**Grocer Planned To Leave  
Monday For Atlantic  
City.**

A verdict of "Accidental drowning due to a sudden attack of heart failure" was returned by a coroner's jury investigating the death of George Watson Allison, East Liverpool grocer, after a short session in Chester this afternoon. Justice A. G. Allison presided as coroner during the taking of testimony.

Mr. Allison's body was found in the Ohio river Saturday afternoon.

Members of the family say that Mr. Allison had suffered from heart disease for some time. He had gone to Chester to visit his brother, R. E. Allison, as he had planned to leave Monday with his wife for Atlantic City, N. J., where he expected to remain several weeks, hoping to regain his health. The presumption is that, being tired, Mr. Allison, after leaving his brother's house, had walked down Third street, Chester, to the river to bathe his head. He is believed to have been stricken while in a stooped position over the water and fell face foremost into the river. His handkerchief was found nearby.

Mr. Allison was a member of the First United Presbyterian church. Besides his wife and four sons, he leaves two brothers, R. E. Allison and Dallas Allison, both of Chester.

Rev. George W. Brown, pastor of the First United Presbyterian church, of Calcutta, will officiate at the funeral services which will be held at his late home in West Sixth street at 2 o'clock Tuesday afternoon. Burial will be made in Riverview cemetery. Friends may view the remains from 7 to 10 o'clock Monday night.

### TWENTY YANKS KILLED

Washington, June 30.—Twenty American soldiers of the force guarding the railway at Romanovka, Siberia, were killed on the morning of June 25, when attacked by anti-Kolchak forces, the war department was advised this afternoon. In the same attack eight were severely wounded and 16 slightly wounded. All were of company A, 21st Infantry.

### DEMAND MADE UPON B. J. ROSS OF WELLSVILLE FOR \$10,000

**Another Development in Plot;  
Radicals Are Suspected.**

**OTHERS ARE WARNED**

**One Report Says Some Persons Have Met Demands.**

A threatening letter demanding \$10,000 has been received by B. J. Ross, general manager of the American Sheet & Tin Plate Co. in Wellsville, adding another link to the chain of evidence supporting the belief of county authorities that radicals are implicated in a plot to exact money and wreck industrial plants in the neighborhood city, according to information given out Monday afternoon.

Details in connection with the note sent to the tin plate company manager could not be ascertained, but Mrs. Ross admitted that her husband had received the warning and that \$10,000 was demanded.

Several other Wellsville people, some of whom, it is said, have complied with the demands for money, have received threatening letters within the past few weeks.

These developments came to light Monday following the attempt Sunday to dynamite the Crystal Springs Ice company's plant in Broadway, Wellsville, and the admission by Rev. Howard G. Wilkinson pastor of the First Presbyterian church, that he had received a letter postmarked Station A, Cleveland, June 25, threatening his life and the destruction of the church.

Convinced that the Wellsville cases are not merely so-called blackhand affairs, county authorities Monday afternoon were leaving no stone unturned in their efforts to run down the persons believed to be implicated in the plot. Sheriff Dalrymple, Prosecutor Beck and Deputy Prosecutor Hanley are co-operating with the Wellsville police in the investigation.

It was announced that the county commissioners would probably offer a reward of \$500 or \$1,000, at a meeting in Lisbon Monday afternoon, for information leading to the arrest of persons implicated in the attempted blasting of the ice plant and also for the arrest of the writer of the threatening letter to Rev. Wilkinson.

Federal authorities will also be asked to investigate.

### AUTO LICENSE TAGS ARRIVE

**Auto Club Will Distribute  
Tags at Owen & Co.  
Office.**

A large consignment of automobile license tags, sufficient to supply all car owners of Columbiana county in East Liverpool and vicinity, arrived today at the real estate office of Geo. E. Owen & company where they will be distributed under the direction of the East Liverpool Auto club which has been designated licensing agent for this vicinity.

Owners of all kinds of motor driven cars may call at the Owen office, pay the fee required by the state law and secure the license tag without delay. A wait of a week or 10 days is necessary where tags are forwarded by parcel post or express from Columbus. No extra charge is made for issuing the tags in East Liverpool, and neither the real estate firm nor the auto club receive any remuneration for their services.

# WILSON TIRED AS RESULT OF PEACE LABORS; RESTS ON SHIP

Prepares to Address Congress, Reviewing Peace Discussion.

ANSWERS MESSAGES

President's Steamer is Expected to Reach New York Monday.

By JOHN EDWIN NEVIN.

En route to the United States with President Wilson on board the U. S. S. George Washington, June 30—(Wireless to New York)—President Wilson, who sailed from Brest yesterday afternoon, is very tired as a result of his long and arduous peace labors, but is highly pleased with the results of his work in Paris. He plans to devote the greater portion of the homeward voyage to resting.

The president is preparing to address congress reviewing what has taken place since the peace discussions opened.

Numerous messages of congratulation continued to pour in upon the president this morning. He devoted considerable time to answering the cordial felicitations from the rulers of various European countries and other personages who had wished him God speed.

It is expected that the president will reach New York harbor next Monday, making the voyage from Brest in eight days. According to present plans he will land at Hoboken and immediately board a special train for Washington. He will address a joint session of congress upon his arrival there.

The copy of the treaty which President Wilson is taking with him contains nothing special. Printed upon ordinary book paper are the final terms, along with them the original terms so that they can be compared and in order that the correctness cannot be questioned.

American peace commissioners remaining behind will not recede from the position taken upon the Dalmatian question.

(The Dalmatian question involves territory upon the Adriatic claimed by both the Italians and the Yugoslavs.)

Secretary Lansing has been directed to handle the American side of the negotiations and he will keep the president posted upon all developments. It is generally expected that a way out of the difficulty will finally be evolved. However, it is stated as a positive fact that the United States will not accept the pact of London as a basis of settlement in any manner whatsoever.

(The pact of London was drawn up among Great Britain, France and Italy by which territorial concessions were promised to Italy in the event she entered the war on the side of the entente. The United States was never a party to this agreement.)

It is already regarded as certain that the president will denounce efforts to nullify the treaty through the passage of resolutions, similar to that of Senator Fall's. Such action would be characterized as taking the side of Germany. However, it is likely that a great portion of the opposition will disappear when all of the facts have been presented to the American congress and the American public.

In addition to being a presidential ship the George Washington might be termed a "bridal boat," as she is carrying seven French war brides to the United States. These young women married American soldiers just before sailing.

# GET WHISKEY IN RAID WETS SEEK TO REPEAL LAWS

Cleveland, June 30.—An early morning raid by Lake county officials on the home of Louis Steles at Willoughby netted eight barrels and 192 cases of whiskey valued at \$7,000. Charles Steles, a son, and former Cleveland cafe owner, signed a \$500 bond for the release of his father. The elder Steles said the liquor was stored by his son when the state went dry and that he was ignorant that the law placed a limit on the "storage" of liquor.

Workers Busy Securing Signatures to Petitions For Referendums.

Cleveland, June 30.—Identified by a daisy on the coat lapel, "wet" workers were busy today securing signatures to petitions by means of which they hope to secure a vote at the November 4th election on three liquor proposals.

The three proposals are:

Repeal of Ohio prohibition constitutional amendment.

Definition of liquors containing 2% per cent alcohol as non-intoxicating.

Referendum on Crabbe prohibition enforcement act.

The work is being carried on under the direction of the Home Rule association.

It was announced today that "wets" hoped to secure 40,000 signatures in Cuyahoga county alone within the next few days.

The daisy was worn today as a part of a national campaign of protest against war-time, national and state prohibition.

# SHOOTS WIFE, KILLS SELF

Cincinnati, June 30.—Following a quarrel due to divorce proceedings filed by his wife Theresa, Dominick Gefro, 36, this morning shot and probably fatally wounded her. Gefro, attempting to escape, was chased by a policeman. He ran back home and committed suicide at his wife's feet.

EIGHT ITALIANS GO BACK TO THEIR HOMES

Eight Italians, including seven men and one woman, all residents of East End, left East Liverpool yesterday for their old homes in Italy. They are traveling by way of Cleveland and left the East Liverpool Pennsylvania station in the afternoon. Each displayed a large roll of money as he purchased his ticket for the trip. Policeman Cornelius Buton talked to the travelers just before they boarded the train, and was told that as a result of the signing of the treaty with Germany and the consequent guarantee of peace in Europe the Italians had determined to return to their old homes to enjoy the fruits of their toil in America.

# ADMITS MURDER

Dayton, June 30.—"I killed him and I want to give myself up," said Mrs. Lucella Brown, 23, early this morning when she walked into police headquarters, after patrolmen had been hunting her since early Sunday morning. Her husband was found dead on the street, as the result of a bullet in his heart. The wife's only comment is that she "was forced to kill" her husband as he had told her he "was done with her" and had gotten out of bed, dressed and left the house, just before the shooting. The wife went after him and the quarrel and shooting followed.

Finally father summed up the situation:

"Mother," he said, "I'm going to shock your pride and add several loath of the sweet to your life. I stop eating at the table and the apple pie. Mother was a little, but she was a success and she became more and more so. She was a success and she became more and more so. She was a success and she became more and more so."

The girl replied:

"I don't like to be hungry. I can't eat cake. Those spicy little sandwiches, 'are the best I ever had. They're a feast in themselves."

Snap and ginger, ginger and snap—Zu Zu Ginger Snaps. Give them to boys and girls with apple sauce or other stewed fruit. How different they make everything taste. Alone, they're a feast in themselves.

# REPORTS FROM STOCK MARKETS

New York, June 30.—There was no change of speculative conditions as a result of the signing of the treaty on Saturday at the opening of the stock market today. Nearly everything traded in made some gain during the first 15 minutes. Speculatives again moved up with a good deal of violence, the greatest gain being in Ajax Rubber which rose 7 1/2 points to 106 1/2.

Steel common moved up 1 1/2 to 163 5/8 and other steel industries were generally from fractions to over one point higher.

Pittsburg Coal moved up 2 1/2 to 68. The petroleum stocks were generally strong and some of the other industrials including International Paper made good gains.

The copper stocks failed to share in the upward movement. Cerro de Pasco rose 1 5/8 to 65 3/4, but quickly dropped to 63 1/2. American Smelting and Anaconda both yielded about 1 1/2. Central Leather rose two points to 108.

Nearly all of the leading issues were under pressure during the forenoon, sustaining losses from one to four points.

Steel common fell to 167 1/2 and Baldwin to 104 1/8. Industrial Alcohol was weak, dropping six points to 146. Granby Consolidated on the passing of the dividend dropped four points to 65. General Motors yielded nearly six points and Studebaker four points. Losses of about one point were sustained in all the copper shares. The rails were quiet.

Chicago, June 30.—Corn opened 3 3/8 to 1c higher; oats 1 1/4 to 3/8 lower. Provisions: ribs lower; others not quoted. Opening:

# NEW YORK

Continued from Page One

Many restaurants and bars appear determined to continue the sale of beer and wine, if the purchaser buys a sandwich or other food, but there is little prospect that whiskey and other hard liquors will be on sale tomorrow. However, the decision taken by the liquor association this afternoon will be quite generally followed throughout New York.

In all the big cafes preparations were being made for a very hot time in the old town tonight. The police are bracing themselves for the final shock and there will be reserves on hand to calm all celebrants.

Today liquor stores were stampeded by great crowds of buyers. Deliveries were refused at most places and at big downtown stores fashionable dressed women were dragging cases of champagne and other liquors into limousines and taxis.

J. BARLEYCORN

Continued from Page One

was believed, and will be enacted only after what promises to be a bitter fight. Some of the provisions of the act are regarded by the wets as too drastic and these will be opposed on the floor. On the other hand, dry members let it be known they favored a measure even more rigid, and that they would fight to have eliminated that provision under which liquor could be stored in private homes.

The house was scheduled to start a holiday recess either tonight or tomorrow and the remaining sessions were to be devoted to other pending legislation. Therefore it was unlikely that the measure could be taken up before the middle of next week.

Representative Randall of California, prohibitionist, will attempt to bridge the gap between the date of the president's proclamation and the effective date of national prohibition next January, he announced today.

"The effect of the president's announcement is that he will by proclamation place the country on a whiskey-drinking basis," he said today. "When he lifts the ban, it will pour out a flood of seventy million gallons of whiskey now held in bond by the war prohibition act. That act does not relate to beer and wine alone and the president cannot discriminate in his proclamation. With a million men yet to demobilize, under no circumstance could his proclamation be issued before Oct. 1. At that date no beer will be left in stock and but few breweries will open for a three months' run. The country would be thrown into a whiskey-drinking orgy, and surely the president does not desire that. I will introduce in the house an emergency peace measure to prohibit removal from bond or transportation in interstate commerce any distilled spirits for beverage purposes between the date of the president's proclamation and the effective date of national prohibition Jan. 16.

War department officials refused to speculate today upon the date when it will be possible to say the army has been demobilized. The makeup of the army with its drafted men, national guardsmen and regulars, together with volunteers for the duration of the emergency and for various periods, is so complicated that it was said the question as to when demobilization had been terminated probably would have to be decided by legal experts. It was expected that the point would be ruled on by the attorney general's office.

Meanwhile, with the enforcement code not yet enacted, the Anti-Saloon league contended that the original act carried sufficient provisions for its enforcement in the interim.

"If the liquor men violate the war prohibition act, they do so at their own peril," was the warning issued by Dr. E. C. Dinwiddie, legislative superintendent of the league.

That the league will seek to have the enforcement code made more drastic by the amendment of the provision allowing liquor to be stored in homes, was revealed today in a statement by Wayne B. Wheeler, general counsel of the league.

The proposed provision for an unlimited amount of liquor to be permanently stored in the home is unwise, he declared.

"It will turn many homes into speakeasies because the home is exempted from the search and seizure clause entirely unless it is in part a store or boardinghouse. The proposed code does not authorize the search of a house even if it is proven that liquor is sold therein.

"This provision should be changed so as to limit the amount of liquor possessed or to exempt it only if possessed or the time of its possession."

Clark Re-Appointed

Columbus, June 30.—Reappointment of J. D. Clark of Dayton to a six year term as member of the state industrial commission, was announced today by Governor Cox. Clark is a Democrat. He was appointed in December, 1917, to fill out the unexpired term of the late Wallace D. Yapple of Chillicothe. His new term begins July first and ends on June 30, 1925. The position pays \$5,000 a year.

YANKS RETURN FROM RUSSIA

Von Steuben Brings 1,541 Men of 339th Infantry Home.

New York June 30.—The first American troops who served in northern Russia to return, came home today aboard the transport Von Steuben by way of Brest, which brought 2,928 veterans, including 46 officers and 1,495 men of the 339th infantry.

The troops were under command of Major Joseph Brooks Nichols, of Detroit, Mich., who wore the British D. S. C., the French war cross and the French Legion of Honor decorations. Among them was Company I, which was named by General March as the unit which refused to return to the front in the Archangel sector. The majority of the men aboard the ship were from Michigan, but there were 179 from Illinois 104 from Ohio, 99 from New York and vicinity and 54 from Mississippi.

## POLICE MAKE BIG RAID HERE

For the alleged selling of intoxicating liquors in violation of state-wide prohibition statutes, Rocco Richipi, Italian, of Third street, paid a fine of \$600 and costs to Mayor George B. Imbrie Sunday evening.

Richipi's establishment was raided by local police and a delegation of county officials, headed by Sheriff Dalrymple and Prosecuting Attorney Walter Beck, of Salem, shortly before 5 o'clock Sunday evening.

Two truck loads of whiskey, valued at approximately \$1,200 was confiscated and Richipi was taken into custody, charged with keeping a place where intoxicating liquors were sold and with selling intoxicating liquors. He pleaded guilty to both counts at a hearing before Mayor George B. Imbrie and was fined a total of \$600 and costs—\$400 and costs on the first count and the remainder upon the second. He pleaded guilty at 7 o'clock and two hours later his fine was placed in the hands of the mayor by a number of his friends. He was released.

Included in the county delegation in addition to the sheriff and prosecuting attorney were Deputy Sheriff Harlan Crawford and Assistant Prosecuting Attorney Jesse Hanley. Pa. Solomon William Phillips and Arthur J. Winton, with Police Chief John Riel formed the Wellsville members of the raiding party.

The county and local officials, learning of the booze catch in the Richipi store, made a visit about 4 o'clock. They searched the store room, cellar and living apartment upstairs but failed to find any incriminating evidence.

Concluding their search they returned to police headquarters and following another count returned to Richipi's. Underneath a stable in the rear of the store, a cellar was discovered. In it was stored the booze.

## DRESSMAKER SAVED FROM OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N. Y.—"Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pains would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an icebag on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine, Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to ailing women, and you may use my name at any time."—Mrs. PERILLA HULSHIZER, 218 E. Fall St., Ithaca, N. Y.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

## ANNUAL REUNION OF GROOMES FAMILY HERE

The tenth annual reunion of the Groomes family was held Sunday afternoon at the home of Mr. and Mrs. James E. Weaver of Clark avenue. Following the dinner the afternoon was spent informally. Rev. ## D. G. ANDERSON AUTO VICTIM

While enroute to Midland Saturday evening about 5 o'clock Dayton G. Anderson, aged 46 years, employed of the American Sheet and Tin Plate plant here, was killed and his wife slightly injured when the machine in which they were riding plunged over an embankment, a short distance west of Midland.

Anderson, who was driving, encountered a difficult turn in the road, along the hillside. The roadway at that point had been repaired with ashes. The rear wheels skidded, throwing the machine across the roadway. While attempting to turn the front wheels in order to secure a position in which to back out of the bad place in the highway, a part of the road, under the front wheels, gave way, allowing the auto to glide down over the embankment. The machine turned turtle at the foot of the hill, pinning Mr. Anderson under the wheel.

Edward Martin, an employee of the E. G. Sturgis undertaking concern, passing the spot a short time afterwards, heard the cries of Mrs. Anderson. He summoned the McLean ambulance which went to the scene of the accident and removed the body.

Besides his widow, deceased is survived by three children: Mrs. Charles Hanlon, Mrs. Paul Stone and Mrs. Lois McLaughlin of Wellsville; six brothers, Orpha, Melvin, Arthur, Forest, Walter and Francis, of Parkersburg, W. Va.; and four sisters, Mrs. Clara Nicholson, Mrs. Annie West, Mrs. James Parr and Mrs. Dianthe Carothers, of Parkersburg. Funeral services will be held at 2 o'clock Tuesday afternoon from the late home in Commerce street. Rev. J. J. Cole, pastor of the First Christian church, officiating. Interment will be made in Spring Hill cemetery.

## NO CLUE TO PLOTTERS HERE

Police today had failed to establish the identity of the blackhanders or Bolshevik agents who early Sunday morning attempted the destruction of the Rosenberger ice plant and milk depot in upper Broadway. Two charges of dynamite were placed alongside the building, about six feet apart. One of the charges, containing about three sticks of the explosive went off, shattering the windows in the building, but causing little other damage. The other charge failed to explode.

Officials of the plant assign no reason to the attempted blowing-up of the plant other than the fact that it was the work of Bolshevik agents bent on general destruction.

D. B. Stout, engineer at the ice plant, and Edward Grimes, another employee, were in the building at the time of the explosion. Both rushed to the doors when the charges went off but failed to see anyone in the darkness.

Other developments in the activities of the organization which is in operation here, were brought to light when Rev. Howard G. Wilkinson, pastor of the First Presbyterian church, reported the receipt of a poorly penned letter from Cleveland, threatening to blow his church to pieces. It is believed the letter was originally intended for the First Christian church officials owing to the fact that it vehemently protested the sending of the resolution recently drafted by Sunday school officials against the Willard-Dempsey boxing match at Toledo on July 4. The letter said:

"To whom it may concern about the Willard-Dempsey fight the Fourth of July, I think you had better keep their noses clean or minister and church will be blown to H— and back. We mean trouble and don't you forget that you folks have caused enough trouble. You had better wake up and take notice!"

As the result of the explosion at the Rosenberger plant, members of the Chamber of Commerce and other citizens assembled in Chamber of Commerce rooms Sunday afternoon to perfect plans for warfare against the secret organization which is said to be operating here now.

Revenue Collector Here. Louis Steinfeld, deputy internal revenue collector, will be at the city hall in Wellsville between 9 a. m. and 5 p. m. Thursday, July 3, for the purpose of collecting revenue and excise taxes.

## FRENCH HEROINE OF WAR IS KIN OF PRESIDENT WILSON

Miss Mary Cunningham.

Miss Mary Cunningham, a cousin of President Wilson, is called the "Heroine of Courtrai" because of her bravery and endurance during the German occupation. Her life during that time was a nightmare. She survived winters of near starvation and stayed in her home which was riddled with bullets until the happy day of liberation came. Miss Cunningham is an Ulster woman and is nearly eighty years old.

## MRS. LETTIE BEATTY FOUND DEAD IN BED

Following a five months' illness, Mrs. Lettie Beatty, aged 27 years, well known resident of the city, was found dead in bed Sunday morning at about 7 o'clock at the home of her mother, Mrs. John T. Myers, in Seventh street. Death was due to a complication of diseases.

Mrs. Beatty was a member of the First Methodist Episcopal church. Besides her husband, Russell Beatty, and her mother, deceased is survived by two children, Eleanor and Aileen; two sisters, Mrs. Earl McCombs and Mrs. John Heakin, both of this city, and a brother, John Myers, of Buffalo, N. Y.

**VACATION FOR THE SCHOOL HOUSE.**

The last lesson has been recited, the last book slammed shut. Billie has been told for the last time to pick up the papers around his seat. School is out!

The long suffering parents will now take charge of their children, and may heaven send them strength to bear with it until September.

But what of the school house? What is its vacation to be like? Is it to have a hasty sweeping, a careless wiping up of floors and desks, then to have the key turned on it? For the sake of sanitation, comfort and decency, let us hope not.

There are two months ahead in which to build additions assuring proper and healthful housing for all the children who will need it next fall. A little extra time and money spent now will obviate all danger of over-crowding and bad sanitation next fall.

Paint on walls and ceiling, floors scraped and scrubbed, all mean surroundings so pleasant and cheerful that just from force of example it will be easier to teach the principles of order and good housekeeping which are so essential to the education of our future housewives, office-men and merchants.

Basements and out-buildings made as immaculate and orderly as the session rooms will have their good influence, too, on manners and morals.

The school house needs a vacation, to be sure, but not so much a rest as a complete change.

**GERMAN "REVENGE."**

The peace treaty gives the Allies the right to occupy Germany for a period of fifteen years, unless German war obligations have been discharged before that time. The Germans are complaining bitterly of that provision, which was to be expected. More important than that is the fact, attested by American observers, that the Germans are already frankly talking of "revenge" at the end of the fifteen years.

This is only one more reminder, more pointed than usual, of the essential righteousness of the terms imposed and of the imperative need of watching Germany like a hawk to make sure that she observes them.

Germany would have sought "revenge" just the same, no matter how light the terms had been—revenge for having been foiled in her criminal war plot.

Quite aside from the justice of making Germany pay to her utmost in order partly to compensate the Allies for the harm done them, it would have been necessary to lay crushing burdens and restrictions on Germany in order to keep her from using her resources in preparation for another war.

Even as matters stand, the Allies must be on their guard throughout the whole period of German punishment and probation to make sure that an army is not being organized and money and supplies accumulated for another sudden onslaught against civilization. And always, until that far-distant, hoped-for time when the heart of Germany shall be changed, the world must be on guard against insidious propaganda, calculated to strengthen Germany by dividing and weakening her conquerors.

**EASY PAYMENT OF WAR DEBT.**

Paying the American war debt bill will not be such a big task, when once the heavy current expenditure on the army and navy comes to an end.

Senator Smoot figures that the wind-up of the war will leave the United States owing \$30,000,000,000. That is a big sum of money. It is big enough even when we deduct the \$10,000,000,000 which represent loans to the Allies, and which may properly be figured as an asset. But it is small when compared with the national ability to pay and the burden can be distributed over many years.

Even if the Allies did not repay any of those loans, and the United States were left with the whole \$30,000,000,000 to pay, Senator Smoot says it could be taken care of in 24 years by setting aside for that purpose \$750,000,000 a year. That would be a short time, as such matters go. Most nations let their debts drag on indefinitely.

If we wanted to let it run longer, we could wipe out the whole thing in 32 years by paying \$450,000,000 a year, or in 44 years by paying \$300,000,000 a year.

Compared with the billions a year the nation is now paying in war taxes, this latter figure looks particularly small. And if we figure on the foreign loans as collectible in the same period of time, we find that the whole debt could be paid in 44 years by devoting to it only \$200,000,000 a year. That is a sum which, even now, would hardly be missed, and which will seem absurdly small a decade or two hence, with doubled national wealth and income.

**WIRELESS DEVELOPMENT.**

Government ownership is not a term to conjure with in this country at present. Even public control of business is under a cloud. The nation is frankly relieved at the return of the telegraphs and telephones to their owners, and the imminent return of the railroads. It is not a favorable time to suggest any extension of federal management.

Nevertheless, there are some pretty good reasons for suggesting a brand new enterprise on the part of the government, in the realm of communication. Wireless telegraphy is rapidly being developed to a point where it can be made extremely serviceable to the nation, for every-day use in business and private life. Wireless telephony also is becoming practical. These means of communication are not yet organized and extended like the wire telegraph and telephone lines. From their nature, it is more difficult for private enterprise to handle them satisfactorily on a national scale.

Why should not the government go into wireless business, supplementing the work of the postoffice? The government already has many powerful wireless stations. It has large numbers of wireless experts at its disposal—both engineers and operators. It has a great stock of material. It has devices and ideas accumulated during the war and not yet used. With the help of the wireless branches of the army and navy, it may be that a national wireless service could soon be developed far beyond anything of the sort yet existing anywhere, without undue expense, and able to protect itself from the amateur interferences to which private wireless companies are subject.

**NEW YORK LETTER**

New York, June 30.—Thoughts along Broadway on a hot afternoon: Don't mind the humidity so much as the remarks about it. That Hawaiian at the Claridge had an idea. Wore a rubber cap filled with shaved ice. That's Mrs. Yvette Gilbert talking to Mr. Welch, of the Evening Telegram. How young she grows. Funny sign in that beauty parlor, "Eyebrows shaved!"

The resignation of Frank A. Vanderlip as president of the City National bank the other week resulted in many editorial blubs for the newspaper reporter as a business man. Vanderlip was a reporter on a Chicago paper and he brought to New York and to Wall Street a large, fine western vision. A great banker once told me that he never knew a trained newspaperman who did not make good in business. But he added they should stick to their newspaper work. "They are never happy in the commercial world," he said. There was a well known head of a corporation who graduated from a newspaper shop. Now and then he used to go over to Park Row and snoop about the newspaper offices. He confessed that he liked the smell of printer's ink and to dream of being back on a newspaper. He was making more than \$50,000 a year.

**SCOUTS HIKE TO THEIR CAMP**

Troop No. 1 of the East End Boy Scouts left this morning on their hike to Mineral Springs where they will camp for two weeks. Headed by Scoutmaster J. P. Burkhart and Assistant Scoutmaster Roy Gilliland, the boys fell in at the Pennsylvania Avenue Methodist Episcopal church and the order to march was given at 6:30. They expect to arrive at their camp between 2 and 4 o'clock this afternoon. The camping equipment, sent by truck, is expected to arrive about noon.

Several members of the troop, unable to make the trip today, being unable to get away from work, will join the camp the latter part of this week.

The boys are planning a surprise for the owner of the grounds, U. E. Price, upon which they will pitch tents. They have prepared a 12-foot sign over the road naming the camp, "Camp Price."

The boys taking the hike this morning are J. P. Burkhart, scoutmaster; Roy Gilliland, Edwin Humphrey, Arzie Wolf, Joseph Mardis, Lawrence Twyford, Francis Snyder, Francis Wilson, Chester Wherry, John Russell, Franklin Wherry, Clyde Downard, Louis Means, Carl Household and Franklin Wherry.

Admirers of Charles Ray who were worked up to a high pitch of enthusiasm by the baseball game in "The Pinch Hitter," will find special delight in the new Thomas H. Ince-Paramount production, "Greased Lightning," which will be presented at the Strand theater today and Tuesday.

In this photoplay Mr. Ray becomes a speed demon and the climax of the story sees him in the racer of his own make run down the villain who has beaten and defrauded the father of the sweetheart of the hero. The name of the story is derived from a racing auto and Mr. Ray plays the part of the village blacksmith who is the inventive genius of the community.

He has already won considerable notoriety by his seamless Nose-bag, the Imperial axle grease, the Non-Slip Hitching Post and the Little Giant Potato Slicer, when he builds "Greased Lightning," with a view of

**The Cash Value of Carefulness**

Suppose you had a dollar and insured it for seventy-five cents: Then got careless and lost the dollar—you only recover seventy-five cents.

Same on your property if it burns. You get your insurance, but there is always a big money difference between what you owned and what you get.

The difference is what carefulness pays you. But if your house burns, it is a dead, uninsured loss which your carelessness costs you.

## WITH THE WOMEN OF TODAY

There has been much written and said about the boys who enlisted and did things they were not accustomed to do, such things as dig trenches and build roads, but there has not been so much homage done the women who were pioneers in war duties and did things that no woman was accustomed to doing. Thousands of men and boys went to war and did pretty much the same things but not so with the women. The number who actually went overseas was comparatively few and it might almost be said that a woman would scarcely meet five other women who were doing or had done the things she herself was engaged in.

Miss Clara Greenleaf Perry is one such woman. Miss Perry is an American artist who was engaged in relief work in Paris in 1915. When the French army sent out a call for women chauffeurs Miss Perry enlisted on Saturday.

On Monday she entered an automobile school in the city, drove about the streets of Paris on Tuesday, received her brevet or chauffeur's license on Friday and on Saturday was enrolled in the French army as a fullfledged poilu, the first of the three American women who served as chauffeurs with the French.

"As you are going you must do your work," the women were told.

For the first few months the women had to take care of their own cars, washing, oiling and repairing. Then the two American women left and Miss Perry, with two Englishwomen, organized a rest club for the French and American soldiers. In addition she set up a depot similar to the one she had formerly directed under the American fund for French wounded from which she distributed supplies to the refugees who were constantly

pouring in. The drivers' work consisted of bringing in these refugees as well as the wounded soldiers and attending to the calls of the officers in the internment camp of Germans near by.

Miss Perry returned just recently from France and is now assisting Mrs. William Astor Chanler in her work for the French Heroes Lafayette Memorial Fund.

**Women Solve H. C. L. Problem**  
A lunch room for women only where the high cost of living is held severely in check is located above an abandoned saloon in Brooklyn, N. Y. where its destinies are presided over by Miss Clara Harper, who has about her as attendants daily a group of some of the best-known women of New York society. A substantial meal may be had at a cost of 17 to 27 cents.

An average of 700 women and girls lunch daily at the rooms. Here are some of the prices: Chicken in various forms, 17 cents per portion; vegetables of all kinds, 5 cents per portion; bread and butter, 2 cents; puddings and pastry, 5 cents, and a variety of other wholesome dishes at like affording figures.

Here is a hint for church societies, for it is a church society which has put this ex-saloon to such good use.

**Here and There.**  
Mrs. Martin Johnson of San Francisco, Cal., has a hobby for exploring in out-of-the-way places and has just started on a second trip to the South Sea islands, where she will, with her husband, traverse ground never before trodden by a white person. These islands are inhabited solely by cannibals. The Johnsons make educational films on their exploring trips.

### YANK FINDS WIFE GONE; STEALS QUILT; IN JAIL

Pittsburg, Pa.—Edward Stanley returned from the war to find that his wife had gone to another city and had left him only a bedstead and a mattress. He thought the exigencies of the case justified him in entering a house and stealing a quilt to go with the mattress. Mrs. Stanley testified that she got her husband drafted into the army as he failed to support her, and she received the government allowance. Stanley went to jail.

### 255-Pounder for Navy.

Topeka, Kan.—The navy will get some weight if W. D. Parkinson, an eighteen-year-old Topeka lad weighing 255 pounds is accepted by the navy recruiting officer. He tried to enlist here, but as he was under eighteen he could not be accepted. He said he would enlist as soon as he passed his eighteenth birthday. Parkinson is 6 feet 2 inches tall.

### Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

## Resinol the tested skin treatment

"Resinol is what you want for your skin-trouble—Resinol to stop the itching and burning—Resinol to heal the eruption. This gentle ointment has been so effective for years in treating eczema, ring worm, itching, burning rashes, and sores, that it has become a standard skin treatment. It contains nothing that could irritate the tenderest skin."

Your druggist will also tell you that Resinol Ointment is excellent for relieving the smart, itch, and burn of mosquito-bites, and insect-stings. It soothes and cools skins burned by wind or sun. All dealers sell Resinol Ointment.  
*Men who use Resinol Shaving Stick find soothing lotions unnecessary.*

## BUCKEYE STATE BRIEFS

**Dayton**—This city may try owning its own gas and electric equipment for street lights, as a result of a conference of the city officials who consider buying lamps, posts, wires, conduits and such and buying nothing but the current from the local companies. The present contract does not expire until next April, but the city heads believe they can save \$30 a light. The annual appropriation is \$400,000.

**McMeehan, W. Va.**—Andrew L. Westfall, engineer on the Newark division of the Baltimore & Ohio railroad, saved two children from drowning in the Ohio river near here two years ago. He was recommended for a Carnegie hero medal. Westfall was drowned while bathing in the river near the same spot where he performed his heroic deed. A ruptured blood vessel in his lung caused him to go down. He leaves a widow and three children.

**St. Clairsville**—Belmont county wheat is being cut. It is ten days ahead of the normal season. Although the crop is down, much wheat is down because of heavy rains and wind.

**Gallion**—Caught in a cog wheel and held firmly to the shaft, George Banks employed in a swam ill was being carried slowly on the carriage toward the rapidly revolving big saw and horrible death. Fellow workmen saw his plight and stopped the machinery just before the teeth of the saw caught the prostrate body of Banks.

**West Union**—This town and Adams county will join in a good old fashioned Fourth of July and home coming. Boecher W. Waltemire, member of the state utilities commission, will make the address.

**Akron**—Mack Wolfe and his son Joe the latter aged 19 years, were before

the police court for disorderly conduct. The elder Wolfe admonished his son against the use of cigars and as the story goes, admonished him rather severely. In the end Joe got the best of the "admonition." Joe was fined \$5 and costs and sentenced to ten days in the works. The latter was suspended on condition he cut out the cigars. The elder Wolfe was assessed the costs.

**THREE-YEAR-OLD BASEBALL FAN KILLED BY TUMBLE**  
St. Louis Mo.—A ball game attracted the attention of three-year-old Charles H. Gerber.

In order to watch he pushed a chair up to a window of a third floor apartment and climbed up on it. When the child leaned against the screen it gave way and he fell to the brick alley, thirty-five feet below. He was dead when picked up.

**BECAUSE JUROR SLEPT, ARGUMENT IS REPEATED**

Cleveland, Ohio.—It was very warm in the courtroom.

And a big fly buzzed incessantly in the corner of the jury box. Juror Bruno Stadler says the buzzing principally caused him to fall asleep. The result was that the other eleven members of the jury had to listen a second time to the arguments of counsel and the charge of Judge Critchfield. Stadler's slumbers were detected as the jury was about to retire.

**LONG AND SHORT OF IT REJECTED BY MARINE CORPS**

Tulsa, Okla.—John Burke and Harry Brown, Tulsa youths and chums,

tried to enlist in the marine corps. John was too short and Harry too tall, so the recruiting officer rejected them. John measured sixty-one inches tall, while the minimum requirement calls for sixty-four inches. Harry was seventy-seven inches tall, while the tallest man that can be enlisted must not exceed seventy-four inches.

### Lazy Life During Hot Months Causes Lazy Liver

At no other time is the girl so constant a companion of her mother as when she is emerging into womanhood. There are so many questions to ask; so much she needs to know.

And school is over. Hers is now a lazy, inactive, carefree life. No wonder she is not always as lively and as well as she should be at her age. Let the mother inquire if the bowels are functioning properly, for there lies the basis of good and poor health. It will usually be found that a laxative is needed, and none will give safer and quicker relief than Dr. Caldwell's Syrup Pepsin which is just a combination of simple laxative herbs with pepsin. Taken tonight, it acts freely and pleasantly in the morning. The head is again clear, the body light. There is renewed interest in life. A dose of Syrup Pepsin now and then is almost a necessity for everyone in hot weather. A bottle can be bought at any drug store for 50c and \$1, the latter being the family size, or a free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 480 Washington St., Monticello, Ill.

## Famo Makes Heads

### Clean and Healthy

Science knows that seborrhea causes falling hair, dandruff and finally baldness.

Famo stops seborrhea by destroying the deadly seborrhea bacilli.

It dissolves the dandruff and makes the hair and scalp clean and healthy.

The seborrhea germ attacks the hair roots and unless it is checked, kills the hair.

Famo kills the germ and makes new healthy hair grow.

It gives a new lustre and sheen to the hair and stops falling hair and itchy scalp.

No massage of the scalp is necessary, as Famo is absorbed as soon as applied.

All toilet goods counters sell Famo in two sizes—a small size at 35 cents and an extra large size for \$1.00.

Your money will be returned if the large size does not satisfy.

Seborrhea is a morbidly increased flow from the sebaceous glands of the scalp. The seborrhea excretion forms in scales and flakes and is commonly known as dandruff.

## WEATER COAT IS STILL GOOD STYLE

Here is an odd combination, a silk sweater coat worn with a knitted wool skirt. The skirt is brown with a thin stripe of turquoise blue. The sweater is golden brown silk with an inner collar of turquoise. Sweaters will always be in vogue if they continue to make so many new and attractive styles.

The guests motored to Youngstown in the evening. The guests included Mr. and Mrs. John Morris, Mr. and Mrs. Caeser Johnson, Mr. and Mrs. George McGarry, Mr. and Mrs. Frank Hamilton Jr., Mr. and Mrs. S. J. Hamilton and James Hamilton, all of this city.

**Mackall-Hughie Wedding.**  
Miss Florence Young Mackall, formerly of this city, and J. C. Hughie, son of William Hughie of Clearwater, Fla., were married Friday in the Christian church in Akron, with Rev. B. P. Wise, formerly of this city, officiating. Following the wedding a three-course wedding breakfast was served in the home of the bride's mother in Akron. They will reside in Clearwater, Fla. Miss Mackall is well known in this city, having resided here for many years.

**Sunday School Picnic.**  
The little folks of the elementary department of the First Presbyterian Sunday school are enjoying a picnic at Thompson park today. Mrs. S. E. Fisher, superintendent of the Sunday school, is in charge of the children. A program of juvenile games was the feature of the afternoon entertainment. A picnic supper was also a diversion. Teachers of the various classes accompanied the children.

**Surprise Party.**  
Kenneth Pelley was pleasantly surprised Friday afternoon at the home of his parents, Mr. and Mrs. Albert

## FIRST U. S. WOMAN WHO BECAME POILO

Miss Clara Greenleaf Perry.

When the French army sent out a call for women chauffeurs, Miss Clara Greenleaf Perry, an American artist engaged in relief work in Paris, decided on a Saturday that she would enlist. On Monday she entered an automobile school in the city, drove about the streets of Paris on Tuesday, received her brevet or chauffeur's license on Friday and on Saturday was enrolled in the French army as a full-fledged poilu, the first of the three American women who served as chauffeurs with the French.

## GLAD TO GET RATES CERAMIC CITY CHARGES

Newell Citizens Seek Water Rates Effective in East Liverpool.

## AWAIT CO'S ANSWER

Claim Factories Should Pay Any Increase in The

Stating that they would be glad to enjoy the water rates as effective in East Liverpool and to have water meters installed in their homes, citizens of Newell through their attorney, Robert Ramsey, have told the West Virginia public service commission that if any water rates are to be increased in Newell the factories should pay for it.

The citizens' attorney is now awaiting reply from the Newell Water & Power company to a brief submitted last week by the citizens. The company is to reply by July 2, by submitting a brief to the commission, which has announced it will decide upon the company's application to raise water rates, within a few days.

The citizens state in their brief that the industrial consumers of Newell use 75,224,000 gallons of water annually, while the domestic consumers use 12,276,000 gallons in the same period.

The brief also states that based upon the above calculations the actual operating cost of the water system for industrial consumers would be \$601 and \$882 for domestic consumers.

"The actual revenues received from the industrial consumers for the year 1918 were as follows, \$3,964. The actual revenue received from the domestic consumers for the year 1918 were as follows, \$4,009.95," the brief states. "The very significant fact of the matter is as shown, that the industrial consumers actually paid about one-half of the cost of the production of the water supply required for their purpose, while the domestic consumers paid more than four times the cost of the production required for their purposes."

"For the year 1917 the industrial consumers paid but \$2,938.40 and in the year 1916 the sum of \$1,513.40 as revenues, while in each of these years the domestic consumers paid 4,000; yet the industrial consumption was seven times that of the domestic."

In summing up their brief the citizens state: "It is submitted that the revenues that have been derived from the domestic consumers have been exceedingly attractive as their (the water company's) statements will show and that equitably there is no justification for an increase of revenue from this source. If any increase of revenue is to be had, it is beyond question that it should come from the industrial consumers who enjoy the vast part of the benefits derived from this water system. It is apparent from all the facts presented and from an investigation of the matter that the domestic consumers are already paying more than a fair return for the service rendered. We respectfully urge the commission to carefully consider the matter here presented and grant the prayer of the remonstrants in this behalf."

## FAIL TO GET MAN FOR POST

After trying through every available agency to obtain a man principal to head the Newell public schools in the fall, Prof. A. D. Osborne, superintendent of schools, has announced his inability to produce a suitable person at the salary offered by the school board.

While the salary offered for the position has caused some prospective candidates to decline the place, the scarcity of teachers all over the state has a great deal to do with the inability to get a male teacher for Newell, Mr. Osborne said.

## LEMON JUICE

### FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

## U. S. COLONEL WEDS RED CROSS WORKER

Mrs. William Haywood.

New York society was especially interested in the recent wedding of Col. William Haywood of the 15th Infantry, the famous negro regiment, because his bride was none other than the well-known Mrs. Morton F. Plant, widow of the millionaire railroad and steamship man. Mrs. Haywood was an active Red Cross worker during the war.

This scarcity was commented upon last week by J. L. Hanifan, state supervisor of rural schools. His office has been flooded with appeals for help from boards of education in various parts of the state. Mr. Hanifan states that many of the men who have qualified for teaching have been offered higher salaries in other employment. Many parents of school children in Newell have asked that a man be placed at the head of the schools and that he be assigned to promote athletics in the schools, at the same time commending the principal of the high school who guided students through a successful year just ended and who will supervise the school the ensuing year.

Mrs. Osborne has repeatedly requested the state educational offices to aid in supplying teachers to Newell, and has had several applications for the position of principal from men, but each applicant has turned the offer down upon learning the salary.

## New Standard Retail Price List

of **Nemo** CORSETS

Effective July 1, 1919

It has become imperative to advance prices on Nemo Corsets in accordance with the following Price List, because of the constant increase in the cost of materials and labor.

Adhering to our established policy never to deteriorate the high standard of Nemo quality, and at the same time to keep them within reach of the popular demand, we have tried to adjust prices accordingly.

By comparison, you will find that the intrinsic value represented in Nemo Corsets is far above that of any other make, while the invaluable Hygienic-Style-Service, for which they have become famous, is still given entirely free of charge.

## LAUNCH DRIVE FOR RECRUITS

West Virginia recruiting officers, during the next two weeks, will conduct a special drive to secure recruits for service in Siberia. Instructions from Colonel P. M. Shaffer, recruiting officer at Huntington, are to the effect that qualified applicants without prior service may be accepted.

In addition to recruits for the infantry and medical arms of the service recruiting stations are instructed to accept qualified applicants for the quartermaster corps and ordnance detachment. There is also an opportunity for qualified men for the 53d telegraph battalion and for the signal corps. Enlistments for the telegraph battalion and for the signal corps must be for a three-year period. Applicants accepted will be forwarded to Presidio, San Francisco.

The recruiting officer also announces that the following branches are open at Fort Oglethorpe, Ga., and that applicants may be sent direct to that station any time before July 10 for service in the 46th infantry, 11th cavalry, Q. M. C. bakery company, quartermaster corps, ordnance depot and motor transport corps.

Plans have been completed for a modern city hall in Weirton equipped with shower baths, rest rooms as well as offices for council, the mayor and quarters for the police department, according to announcement by Weirton officials. Work on the new structure will likely be started this fall or winter. The present administration offices must be moved shortly from the present location on account of the construction of a steel mill.

His Wrecked Health Got This From Nerv-Worth and He's a New Man. A single bottle of this famous family tonic did the work and did it thoroughly. This is what Mr. McCloy told Uniontown's Nerv-Worth druglet a few days ago:

Wade H. Guyton — For several years I have been in a very nervous condition. Was very much run down and very irritable. Could not get restful sleep. Had severe pains in my head. Was in a condition that had to be corrected in some way.

I purchased one bottle of Nerv-Worth and now I get up of mornings feeling fine and strong and am in every way in good condition and with my normal strength and vigor.

Hundreds have testified to this truth. One of the latest signed statements received from local people is that of Mr. John Morgenthaler, a well known and popular employee of the Pennsylvania Ry. Co., of No. 1513 Allegheny Avenue, N. S., Pittsburgh, who verifies a former statement made by him over six months ago, as follows:

"About six months ago I was cured of a bad case of stomach trouble by Plant Juice and gave a signed statement to that effect, after I had tried all kinds of different medicines with only temporary relief. I was much surprised at that time when I found that Plant Juice gave me a permanent cure and told all of my friends what it had done for me. I cannot say too much in praise of this medicine and will be only too glad to tell others of my experience with it. Before taking Plant Juice I was completely run down and not able to do anything; had no ambition or energy whatever. Plant Juice put new life into me and completely cured me of all my troubles."

## WILLARD IS NOT KNOCKOUT-PROOF, SAYS EXPERT

BLOW TO RIGHT  
SPOT ON CHIN  
AND JACK WINS

Willard is Carrying Around Excess Flesh, Says Medical Man.

PULSE IS ABOVE NORMAL

If Dempsey Reaches Willard's Tummy at the Right Time, Good Night, Jess.

By FRANK G. MENKE.

Toledo, June 30.—Is Jess Willard physically fit to win?  
"Blood pressure tests show that the champion is subnormal on all three counts and personal observation convinces that he is fat and habby on the outside, which is indicative of very harmful flabbiness inside."

That is the conclusion of a Toledo physician who ranks among the foremost in America, and one who has made a special study of blood pressure in its relation to health and physical prowess. He asked that his name be withheld for ethical reasons.  
"The test made of Willard a week ago by a Chicago physician shows that Willard's systolic pressure is 124 and his diastolic pressure is 82, making a difference of 42 between the two which gives the pulse pressure. Those figures show subnormal for a man of Willard's age. His systolic pressure should be about 135 and his diastolic pressure 85, leaving a difference of 50 for pulse pressure—which is the normal average."

"Furthermore, the pulse beats of Willard, taken by the physician were either 59 or 50. I don't know which because one paper had it 59 and the other 50. But in either case it proves Willard subnormal again, for the pulse of a normal man between 37 and 40 should be between 70 and 80."

"There is no question about Willard carrying around some excess weight at this time. And he is flabby on the outside which means flabbiness and fat on the inside around the organs and streaked through the muscles. There is, of course, around all normal human organs, a certain percentage of fat, which instead of being harmful is of vital need. But when fat increases beyond a certain point it is dangerous for any athlete."

"When harmful fat increases within the human body it makes the insular attack upon the muscles. It creeps into them and lessens the muscular power with every increase. Fat is unknown to the muscle of a perfectly trained athlete. Undoubtedly, if you cut through one of the big back muscles of Jack Dempsey you would find nothing but fibre. But if the same thing was done with any man who is carrying excessive fat, thin, fatty streaks would show."

"Until an athlete rids himself of fat, both inside and out, he is not perfectly conditioned and must expect to tire rather easily. That is because work calls upon the muscles to their utmost and when muscles are filled with fat their powers are but limited."

"Only those unskilled in human anatomy as revealed by a study of the knuckled out, the greatest giant that ever lived was subject to a knock-out blow. A welterweight could knock out Willard if his punch landed on the right spot. It doesn't require a tremendous blow to the jawbone to render a man unconscious. But the blow must hit those spots on the chin line that mean the jarring of the brain."

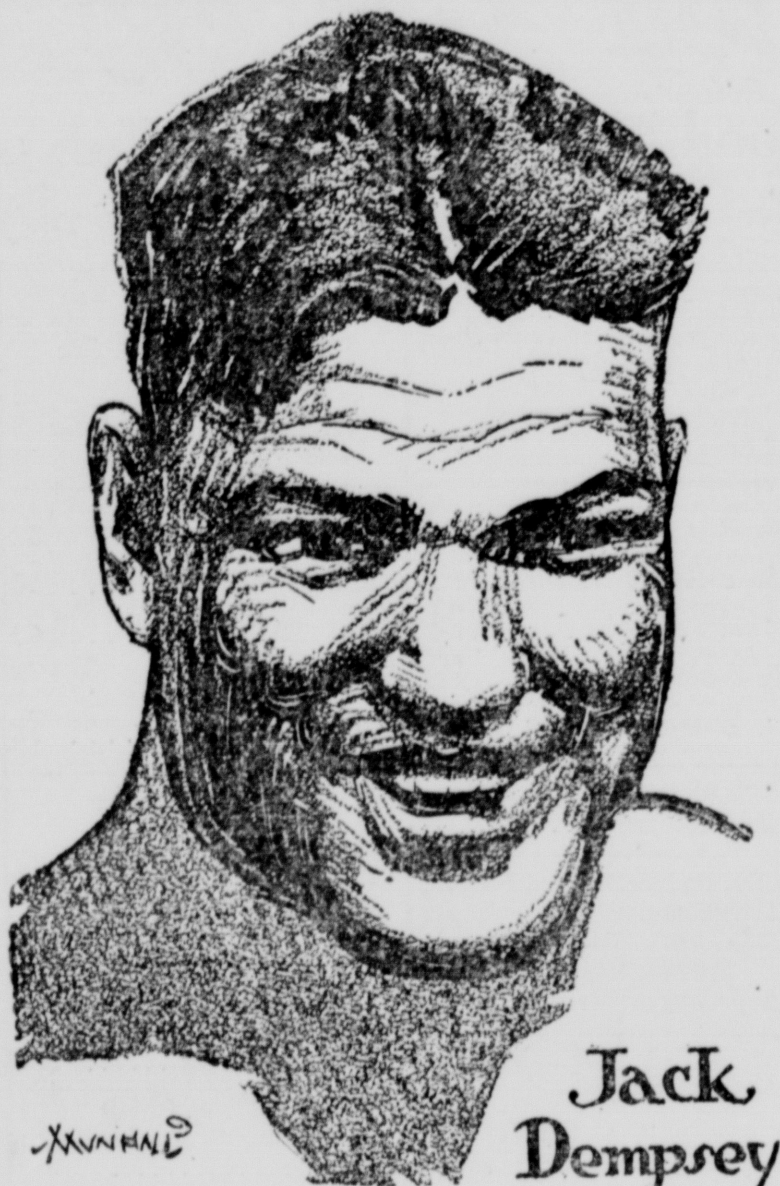

"It is true that some men have greater power to resist punches to the jaw than others. And Willard has proven to be one of them. No man ever knocked him down or out, but that is not because he is knockout proof, but because no man ever has landed on the right spot. If a fairly strong blow ever strikes Willard flush on the jaw on either side at a point from beyond the chin to the ear, Willard must crumble, the same as any other human."

"And, from a purely medical standpoint, it can be said that Willard's stomach, powerful as it is, is no more impervious to a rightly placed knock-out blow than is his jaw. Of course, when he keeps his stomach muscles contracted, as when letting his sparring partners slug away at it, then it is almost impossible to drive a blow through the wall of muscle. But when actually fighting—not merely exhibiting—Willard's stomach will not be contracted at all times. Through most of the time they will be relaxed—and then there will be no muscular wall before the solar plexus. At any rate, a blow sent to that spot, even though it isn't of the crushing variety, may result in Willard being knocked out."

## BROTHERS MEET FIRST

## TIME IN 24 YEARS

Indianapolis, Ind.—William Jones, late of the United States army and originally of Bowling Green, Ky., was standing in the line of applicants for enlistment in the army at the local recruiting station. He was telling of his life and was overheard by another applicant who proved to be his brother, Donald Jones, also late of the United States army, whom he had not seen in 24 years. The two brothers will tell of their experiences while serving in the infantry of the army of occupation in Germany.

Dempsey's Led Care-Free Life;  
Has Been Miner, Section Hand

Jack Dempsey

Toledo, June 30.—(Special.)—Jack Dempsey has hammered a niche for himself in the hall of ring fame. His record of quick knockouts is unequalled in the history of boxing. When he signed to meet Jess Willard, Jack had fought 58 battles and had knocked out his opponent in 38 of them, according to the best info at hand. Twenty-two of these knockouts were handed out in one round.

Here are a few of his feats. He dropped Fred Fulton in 18 seconds. Carl Morris lasted 32 seconds. Arthur Pecky lasted 51 seconds. Tom McCarty lasted just a minute. Charley Miller was dropped in 72 seconds. Porky Flynn tried it twice and lasted 62 and 68 seconds. Jim Flynn took the count in 70 seconds. Bob McAllister managed to stand up two minutes and 10 seconds. Homer Smith lasted 62 seconds.

Only two men have gone the entire scheduled distance in bouts with Jack the Giant Killer since he set out to get a bout with Willard. These lucky birds are Billy Miske and Willie Meehan. Miske managed to live through a six and a ten-round set. Willie Meehan was glad when the final gong rang in two four-round bouts.

Dempsey's style against opponents was indicated in a story told about his farcical contest with Fred Fulton. Dempsey walked over to Fulton's corner just before the referee gave them their instructions and said to Fulton: "We'll shake hands now so we can come out of our corners fighting."

Dempsey dropped Fulton before the plasterer had struck one real wallop. While Dempsey was born in Salda, Cal., his home is in Salt Lake City, Utah, where his mother and father now live. He was 24 years old June 25. Dempsey is 23 years old in years and younger than that in his manner and general actions.

He entered the ring for the first time in Salt Lake City in 1915, when he knocked out a gent named Kid Hancock in the first round. In that year and the following one he knocked out 18 men. Joe Bonds was the only man who lasted ten rounds before getting the sleep producer. Andy Malloy was the only opponent in those two years who had a chance to boast. He managed to last 20 rounds with Dempsey and earn a draw.

All of Jack's bouts, until last year, were fought on the Pacific coast. John Lester Johnson, a negro fighter, gave Dempsey the toughest battle of his career. Their meeting marked Dempsey's first appearance in New York. Jack was an unknown then—New York fans are inclined to think that all fighters hail from Gotham. Johnson gave Dempsey a lot of punishment, but Dempsey took it gamely. Two of Dempsey's slats were caved in during the mill, but Dempsey stuck to it to the final gong.

While Dempsey has been giving his opponents unexpected naps he has been sent to dreamland only once. Jim Flynn turned the trick February 13, 191, at Salt Lake City and in the first round, too. The fireman caught Dempsey on the jaw and laid him low for the count.

According to Jack Kearns, Dempsey's manager, the Salda boy first decided to force Willard into a match when Dempsey knocked Carl Morris cold in their second meeting last year. Dempsey announced that he wanted to clean up every other contender in sight. He did.

## IN DEMPSEY'S FAVOR

He is younger.  
He is faster than Willard.  
He is a fearless fighter.  
He has a sledgehammer wallop in each hand.  
Plenty of bouts in the last year or more have kept his judgment of distance his eye perfect.  
He is rugged and can set a terrific pace.  
He has a wicked left supplement with a good right.  
He has used this combination to knock out 38 men.  
He has the added incentive of a fortune that goes with the title.  
He will enter the ring a popular favorite. The house will be with him at the start.

## Short Sports

Koney got four singles and a triple in five times up. Not bad for an old 'un.

The Giants made good time by remaining idle as the Reds, who are runners up, were beaten.

## OKLAHOMA DOCTORS HAVE

## BIG PERCENTAGE IN WAR

Oklahoma City, Okla.—More than one fourth of the doctors of Oklahoma responded to their country's call and were enlisted in the army, according to figures announced by Dr. L. Haynes Buxton, president of the medical section of the Oklahoma Council of Defense. Of the 2,672 doctors in the state, 700 were in the army.

Of the 175 doctors in this city, seventy-six joined the colors. Twenty-three of these reached France and but three have returned so far.

BOUT SETS UP  
NEW HIGH MARK  
IN BIG PURSES

Willard and Dempsey Will Receive \$127,000 For Their Efforts.

## COVERS A LONG PERIOD

Previous Record Was Made In Willard-Johnson Fight At Havana.

The advance of boxing as a remunerative profession is shown by the size of the purses offered for the most important ring battles that have been fought over a period of seven ty-nine years.

The Willard-Dempsey battle at Toledo, Ohio, July 4, sets a new high mark for purses, as the two fighters will receive \$127,500 for their efforts. Tex Rickard, the promoter, set the previous high mark when he gave Jack Johnson and Jim Jeffries \$101,000 for fighting at Reno, Nevada, in 1910. The biggest purses ever fought for, including the Willard-Dempsey purse, follow:

1849—Hyier beat Yankee Sullivan, \$10,000.

1863—Mace beat Joe Goss, \$10,000.

1887—Kilrain drew with Jem Smith, \$10,000.

1889—Sullivan beat Kilrain, \$20,000.

1893—Cooper beat Bendorf, \$22,500.

1899—McAuliffe beat Carroll \$19,000.

1890—McAuliffe beat Carroll \$19,000.

1891—Fitzsimmons beat Dempsey, \$12,000.

1891—Corbett drew with Jackson, \$10,000.

1891—Slavin beat Kilrain, \$10,000.

1892—Fitzsimmons beat Maher, \$12,000.

1892—Hall beat Pritchard, \$12,500.

1892—Dixon beat Skelly, \$17,500.

1892—McAuliffe beat Billy Myer, \$20,000.

1892—Corbett beat Sullivan, \$45,000.

1893—Dixon beat Eddie Pierce, \$11,000.

1893—Fitzsimmons beat Hall, \$40,000.

1894—Corbett beat Mitchell, \$30,000.

1896—Fitzsimmons beat Maher, \$10,000.

1904—Britt beat Young Corbett, \$32,245.

1905—Nelson beat Britt \$27,770.

1896—Sharkey beat Fitz (out), \$10,000.

1896—Goddard beat Ed Smith, \$15,000.

1897—Fitzsimmons beat Corbett, \$25,000.

1899—Jeffries beat Sharkey, \$66,000.

1900—Corbett beat McCoy, \$56,350.

1901—Jeffries beat Ruhlin, \$30,800.

1902—Jeffries beat Fritz (Frisco), \$31,800.

1903—Jeffries beat Munroe, \$21,761.

1903—Jeffries beat Corbett, \$63,240.

1904—Nelson beat Britt, \$48,311.

1906—Gans beat Nelson, \$69,715.

1906—Fitzsimmons beat Sharkey, \$21,000.

1910—Johnson beat Jeffries, \$101,000.

1915—Willard beat Johnson, \$40,000.

1919—Willard vs. Dempsey, \$127,500.

HOLY CITY IS  
AFTER RECORD

East Palestine, June 30.—This city is out for a world's record on a per capita basis for its chamber of commerce. At the close of the third day of its drive for memberships and working fund it had reached a total of 976 members and \$11,341 in financial pledges. The campaign is on a three year basis, and the amount actually signed up for that period is \$34,023.

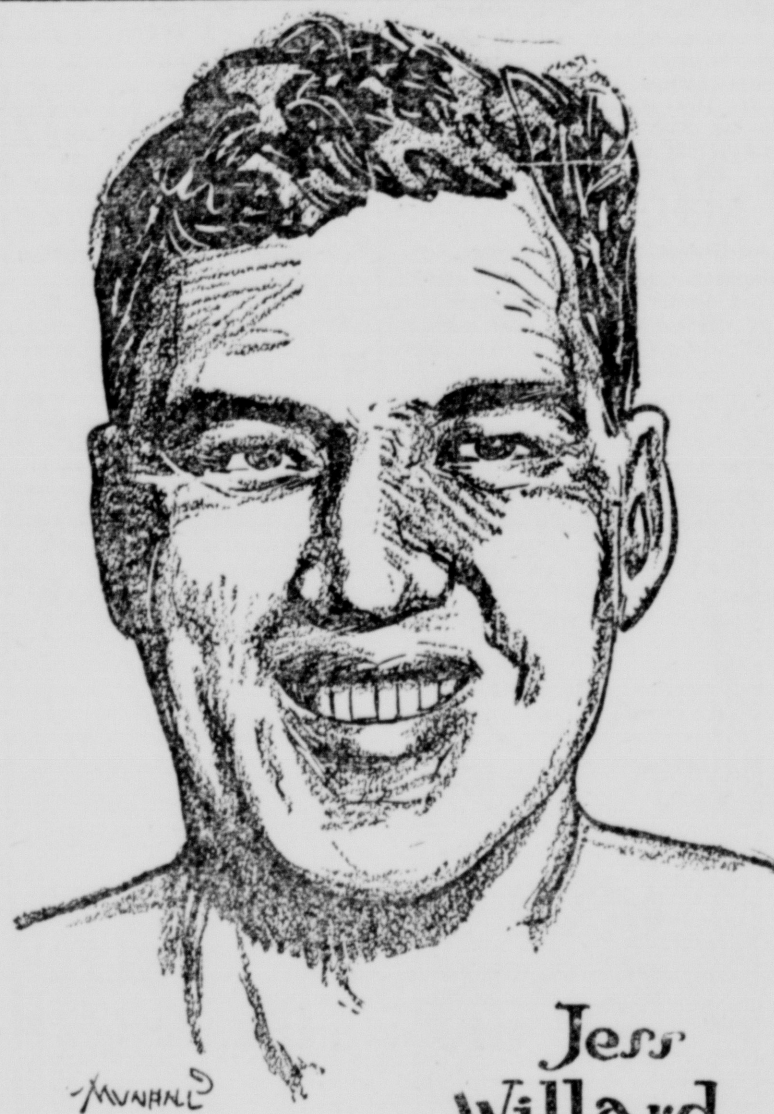

The workers will strive to boost the total operating fund to over \$103,000 which will place this town in the first rank in support of a civic or commercial organization. The membership is ultimately expected to reach 1,500.

The campaign for the new chamber of commerce and the big plans formulated due to the desire on the part of the progressive people of the city to improve civic, mercantile and industrial conditions here. The program of work adopted provides for much to live by means of creating parks, and playgrounds, improving health and sanitation, bettering housing conditions and providing new houses, and working for industrial and commercial expansion along sane and conservative lines.

## MISSOURI'S WAR LOSS

## IS MORE THAN 11,000

Columbia, Mo.—The war casualties of Missouri total 11,009, according to the official report of Floyd C. Shoemaker, secretary of the Missouri State Historical society, from reports received. The reports show that 10,560 casualties were reported from the army, 366 from the Marines and 83 from the navy. The dead in action total 1,270, while the deaths from wounds, disease and accidents number 1,512. Two hundred and fifty soldiers were reported missing in action, and seventeen sailors are missing at sea.

Jess Gave up Roping Bronchos  
to Lasso Fortune? Title in Ring

Jess Willard

Toledo, June 30.—(Special.)—If anyone had told Jess Willard's parents or his friends when the big fellow was growing into manhood that he ever would use his fists, combined with his immense strength and size, to win him fame, fortune and the heavyweight championship, said prophets would have been laughed out of Pottawatomie county, Kansas. For Jess was using his general build and rugged constitution then mainly in roping wild horses and hunting game—both of which are far cries from exchanging wallops in a square enclosure.

The stork paid a belated Christmas visit to the Willard home near Holton, Kansas, on December 23, 1885, to leave Jess. There is considerable talk concerning his exact age, but the folk who refuse to take the champ's word that he is 34 never have investigated thoroughly enough to inquire of his pa and ma. Jess attended school until he was 16, but the outdoor life appealed to him more than the schoolroom, and there aren't any records of Jess winning any championships in the scholarship line.

When he left school he turned his one hobby to advantage. He was the best rider in the country round about Pottawatomie county. Folk said of Jess "He can ride anything he can throw a saddle on." So Willard took to breaking wild horses. He bought steeds, whose owners called unmanageable, at a low figure. He spent a few days or longer, if necessary, taming them down and then sold them at a much better price.

He made a striking figure on horseback too—weighing around 225 pounds and measuring six feet six inches.

If Jess had any thought of going after ring honors in those days no one knows about it. But Jess blew into Oklahoma City one day in 1911 and saw a boxing bout between Harry Brewer and Clarence English. He saw Carl Morris, too, who was then being groomed as the only original white hope to lick Jack Johnson. That was early in the year. Jess made up his mind to try the game, and a short time later fought his first battle. He met Louis Fink, a cattle herder. Willard knew so little about the game that his aides had to inform him he must hold his hands still while they laced on the gloves. Fink won on a foul in the tenth round. That was on February 15. Three weeks later Willard knocked out Ed Burke at El Reno, Oklahoma, in the third round.

Less than three weeks later he knocked out Fink in the third round, at Oklahoma City. Ten of his sixteen bouts in the first two years of his career were won by knockouts. His record up to the time he won the heavyweight championship is well sprinkled with knockout victories.

Willard always will hold a place unique in ring annals—that of being the man who brought the heavyweight championship back to the white race.

Jack Johnson, the negro fighter, had won the title July 4, 1910, by knocking out Jim Jeffries in the fifteenth round at Reno, Nevada. Willard met Johnson April 5, 1915, at Havana, Cuba, for the heavyweight crown. Willard then lacked the ring science which comes of experience but his youth and his piling driving punches coupled with a defense which puzzled Johnson enough so he could not land a knockout, enabled Willard to wear down the black man and knock him out in the twenty-sixth round.

## TAGGING THE BASES

Sunday did not materially change the standings in the American league. The three league leaders were beaten.

The Yanks, who are leading the field, struck a tartar in Jones, of the Red Sox. Mr. Jones not only pitched well, but he batted like he wasn't a pitcher.

The Browns humbled the White Sox in spite of Eddie Collins, who grabbed three hits.

Cleveland was able to get but one hit off Ehnke of the Tigers. It was the Tigers' seventh straight win.

Jim Vaughn's wild heave to Fred Merkle aided the Pirates in walloping the Cubs. Three runs came in on it.

Ed Konetchy may be getting old, but there are a lot of youths willing to swap a flock of years for his eye.

## IN WILLARD'S FAVOR

He is champion and has the confidence of a champ.

He has fought in a championship battle before.

He is bigger than Dempsey in every respect except in the size of his wrist. Dempsey has a thicker wrist.

He is even-tempered. He cannot be rattled.

He packs a man-killing punch, and Dempsey knows it.

He has fought an important contest in the blazing sun. Jack hasn't.

He has faced an enormous crowd before.

We will enter the ring weighing less than he did when he won the title—and will be much speedier as a result of this.

He has developed mentally in the last few years and has a cooler mind than Dempsey.

He has the fastest left of any big man in the game.

He has a vicious uppercut that spells disaster.

MR. FAN HAS A VERY IMPORTANT T ENGAGEMENT IN MIND FOR JULY 4TH

TEX RICKARD'S LIFE ONE OF MANY PHASES

A Fortune Made in Gambling Halls, Oil Wells And Fights.  
HAD LITTLE SCHOOLING  
Has Promoted Many Championship Fights During His Lifetime.

Toledo, O., June 30.—Something like twenty-five years ago one George Lewis Rickard, then an adventurer, gambler and fortune seeker, climbed on board a boat at a Pacific port, headed for Alaska. He picked up an acquaintance with another gentleman of the cards. George Lewis Rickard happened to drop the word that he hailed from Texas. When he bumped into a card game on deck a little while later his new found friend called out invitingly, "Come on, Tex, sit in."

The handle "Tex" replaced the George Lewis part of Rickard's name right then and there. If you'd ask anyone today if he knew George Lewis Rickard he'd say no. But "Tex" Rickard is known around the world as the biggest fight promoter in the game—a man who will gamble with hundreds of thousands of dollars to stage a big fight.

Rickard's whole life has been one big gamble. Had Little Schooling. His father died when Tex was eleven. The family was poor. Tex didn't go to school a day after his father's death. He picked up the education he has. He tells laughingly that he has "a system" of his own for figuring. The Rickard family was living in Missouri when Tex's father died. The mother moved her family to Texas to raise it.

Tex pays frequent tribute to the hardships she suffered in raising her children. The land where they lived was known simply as good cattle grazing land in those days. No one knew that it covered oil worth billions.

Rickard rode range for a time when he grew up. Later he became a professional gambler. He opened several big gambling houses in the west and made them pay him.

He won many fortunes—and lost a few. He went to Alaska—joined one of the Yukon rushes for gold. He went to Mexico, to Cuba, Central and South America, Europe and then Africa. He has hunted big game and fortunes in all these places—with success. He modestly admits that he owns 415,000 acres of wonderful grazing land in Paraguay—where he spent just four years of his life in getting that land. The land is well stocked with cattle. He has a big interest in one of the great packing houses in Paraguay.

To the sporting fraternity, though, he is known more for his U. S. oil holdings than his cattle, as far as business goes.

Promoted Many Battles. Rickard saw big money in staging championship fights and has been the promoter in most all of the big ones in the last two decades. He promoted the bouts at Goldfield and other places in the west when Battling Nelson, Joe Gans and others of their time were in the limelight. With Jack Gleason he staged the tragic comeback battle of Jim Jeffries against Jack Johnson at Reno, Nev., in 1910. The purse hung up for that fight was \$101,000. The sporting world marveled at the chance Rickard took. The fight

netted him a fortune—what with the gate receipts, the motion picture returns and the other concessions. Rickard said at the time that the limit hadn't been reached as far as the magnitude of the finances connected with the mill were concerned. Rickard has referred too. He referred the Jeffries-Johnson mill, but little effort was needed on his part that day. Jeffries was beaten when he entered the ring.

HORSE TALK

Periscope is the trotter which all of the lookouts in the two year old world had their glasses on last year. She is a product of Hamburg Place, where the family building idea of speed production has given to the turf so many great gallopers, the leading sample at the present time being the marvellous colt Sir Barton, and several very clever trotters since that department was added to the big Kentucky establishment. This filly was by Siliko out of Leola, a C. F. Clay mare that trotted in 2:10 1/4, while her dam produced Choral, 2:06 1/2, and her grandma anny Robinson made a trotting record of 2:20 1-4 at St. Louis, Mo., in 1879.

Both H. K. Devereux and H. A. Hanna of Cleveland, Ohio, owned Leola before John E. Madden purchased her for his trotting stud. If alive, she is now twenty-two years old and in the few years that she has been at Hamburg Place she has produced Dagastan, 2:08 1-4, Periscope, 2:10 1-4, Sismo and Laughter, three of which will be raced this year.

Periscope made her first start at the Cleveland July meeting. In that race she made good all of the sound training camp reports by winning in 2:10 3-4 from first National, Brusloff and Brother Peter. On account of being in a stable that was overworked with two year old trotters Periscope did not appear again until the Grand Circuit horses reached Poughkeepsie, where she was purchased by John L. Dodge for \$10,000. He drove her in the balance of her engagements and won with her not only at the Poughkeepsie meeting in 2:10 1-4 but also at Readville and Syracuse, defeating Princess Etawah, Brusloff, Dorothy Day, King Stout, Harvest Star and Eliza Dillon. A break put her out of the money in the two year old event at Columbus where she trotted a half in 1:01, while at Lexington she finished second to Princess Etawah in the two year old division of the Kentucky Futurity.

This season Periscope will appear in the leading three year old event in which her extreme speed and splendid racing qualities will make her a very formidable candidate. She also worked a mile in 2:16 1-2 before being shipped from Lexington to Cleveland with the balance of the horses in the Hollywood Farm stable.

CONTRAST WILLARD TO FAMOUS APE MAN

So wonderful has been the popularity of the "Tarzan" stories and so realistic has been the portrayal of the role of "Tarzan" by Elmo Lincoln, that "Tarzan" has come to be a slang phrase descriptive of an athlete of exceptional strength and power. Naturally, it has frequently been applied to Jess Willard. By a peculiar coincidence Willard and Elmo Lincoln, giant athletes both, will be seen on the screen at the Ceramic theater this week. Today and tomorrow only "The Romance of Tarzan," a mammoth seven-reel production, will be shown at the Ceramic theater. But it must make way for the "Tarzan" in real life, as Jess Willard in the \$200,000, seven-part picture, "The Challenge of Chance," opens a four days' engagement at the Ceramic, starting Wednesday.

Sport Briefs

As soon as Joe Gedeon was able to hobble about enough to get in the game, Herman Bronkie had to take his turn on the hospital list of the Browns. Bronkie was hit on the ankle by a pitched ball some three weeks ago, causing a bruise which failed to heal. It became so bad finally that the doctors said they would have to cut the flesh and see what was wrong with the tissues. And all this time, with that ankle in such shape, Bronkie was playing ball every day and doing a good job of it. He may be out for a month, now that the doctors have gotten hold of him.

Ike Davis, the Western league short stop who got a trial with Washington early in the season but did not deliver, has been traded to the Minneapolis club of the American association for Pitcher Charley Whitehouse. Latest averages show that Whitehouse had managed to win one game for Minneapolis out of a dozen starts. In 77 innings pitched he had allowed 63 hits and 40 runs. If Griff can get that sort of a pitcher that's his business.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime. Many become nervous and inefficient by overwork. By worry, despondency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others. It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses. Timidity, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves. People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support. There is hardly a nerve-shattered man or woman (unless of an organic disease) in American today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost. To become strong and ambitious, to feel that work is not drudgery, to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bio-feren every day for seven days—and take them faithfully. Two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted. Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them. Bio-feren is without doubt the grandest remedy for nervous, run-down, weak, anemic men and women ever offered direct through druggists and is not at all expensive. Carnahan's Pharmacy, F. W. Herche and all other druggists in this city and vicinity have a supply on hand—sell many packages.

MOTOR TRAIN LONG TRIP JULY 7TH

Transport Train Will Cross The Continent To The Pacific Coast.

SIXTY-DAY JOURNEY

Plans For The Adventure Completed By The War Department.

By order of the war department, a motor transport train, three miles long, will leave Washington on July 7 and cross the continent to the Pacific coast, reaching San Francisco over the Lincoln highway.

This long journey is to be made in 60 days. It will serve as a test of the efficiency of the army's transport service, but what is considered more effective, will demonstrate to the nation the inestimable value of a system of national highways.

The plans for the adventure have been completed by the war department. All equipment has been assembled and the personnel detail assigned. This transport train will be the heaviest in the history of any army. It will be even heavier than any single unit of the huge transport service used to keep the armies of the allies supplied along the French front. No motor transport train of any nation has ever before attempted a continuous journey of 3,000 miles in 60 days with full war equipment. The motor trucks will carry not only their own supplies to last the entire journey, but will carry supply and repair units, as well as full complements of men and officers. The marching orders call for an average of 75 miles a day. This schedule necessitates a speed of 15 miles an hour all the way from Washington to the coast, no matter how unfavorable the weather or geographical conditions.

The war department, through the chief of the motor transport corps, Brigadier General Drake, has officially notified the war camp community service of the department of the transport train and requested it to care for the men all the way from Washington to San Francisco, sending the itinerary of the line of march. The war camp community service has been authorized to make official announcement of the event for the war department, and has already dispatched special letters with instructions to all of its organizers and field workers along the line of march. Plans for the men's care and recreation during their brief evenings in each community have already been perfected.

The decision to send three miles of army motor trucks across the country was reached several days ago in Washington after consultation between General Drake in command of the transport service, Colonel Owen Seaman and Lieutenant Colonel J. M. Ritchie working in close collaboration with the Lincoln Highway association.

The most picturesque feature of the long journey will be the manner in which the long snake-like train of motor vehicles will wind its heavy, bumping way over the Rocky Mountains. It will cross by way of the Continental Divide. The engineering staff of the army has carefully figured out the journey so that no mechanical or engineering obstacles stand in the way of its success.

The start is to be made on the morning of July 7 from Lafayette Square in front of the White House. The van of the train will immediately leave the capitol, heading for Pittsburgh. The course then followed will take the soldiers trucks through Ohio, Indiana, Illinois, Iowa, Nebraska, Wyoming, Utah and Nevada. The transport trucks will finally drop down the western slope of the Sierra Nevada then on to San Francisco, range to Sacramento, California, and

For many years the Lincoln highway has endeavored to secure the backing of the government in its project to build a thoroughly sound ocean to ocean highway. The proposed journey

of the three miles of motor transports is the first official assistance that it has received in its project. In many states good roads have been campaign slogans and many governors and mayors have been made or unmade accord-

ing to their ideas on this public question. The war department in its official statement to the war camp community service called attention to the political importance of good roads throughout the country.

### "THIRD DEGREE" AT AMERICAN TODAY

Viciousness of the one-time prevalent police inquisition known as the "third degree," under which, by physical and mental torture, confessions were wrung from hapless prisoners regardless of innocence or guilt, is most vividly portrayed in "The Third Degree," Vitaphone's big production starring Alice Joyce and which will be seen in the American tomorrow and Wednesday.

All the tremendous dramatic force

of the stage production of this famous Charles Klein drama is retained in its picturization by Vitaphone, under the direction of Tom Terriss, and make it one of the most pretentious and forceful screen productions ever put out.

Miss Joyce takes every advantage of the dramatic possibilities in the role of Annie Sands, waitress, who crushed the power of her millionaire father-in-law and of the police system to free her college husband, doomed to a murderer's death for a crime of which he was innocent, but accused in malice for marrying the girl.

The beautiful Vitaphone star never was more appealing, and she has the support of a cast of exceptional strength, including Gladden James, Anders Randolph, Miss Hedda Hopper, Herbert Evans, George Backus, J. T. Wade, L. Rogers, Lytton and Edward McGuire.

#### PARENTS SEARCH FOR LOST CHILDREN

Has anyone heard of little Jimmie Glass? The child disappeared many years ago, yet his parents are still searching for him anxiously. His is one of the most noted cases of disappearance in this country. Hundreds of clues were followed in a vain endeavor to find him. Mr. and Mrs. Glass have traveled all over the United States in their efforts to trace their little son. At one time there was a rumor that gypsies had kidnapped him, and every gypsy camp in the country was searched—but in vain.

#### "ROMANCE OF TARZAN

##### AT CERAMIC TODAY

Featuring the same remarkable cast of players who made "Tarzan of the Apes" one of the outstanding film triumphs of recent years "The Romance of Tarzan," which dramatizes the concluding chapters of Edgar Rice Burroughs' great story of jungle life, opens a two-day engagement at the Ceramic today.

More startling and spectacular than "Tarzan of the Apes," of which it presents the concluding chapters, is "The Romance of Tarzan," in the judgment of various New York and Chicago critics who have reviewed the new screen version of Edgar Rice Burroughs' fascinating story of primitive life. It is in seven parts, and

in addition to the remarkable novel of its theme, offers the eye a rare treat with scenes of natural splendor, amid which wild animals and equally savage cannibals are shown in all their primitive strength and cruelty. Elmo Lincoln again takes the part of Tarzan, the white ruler of this untamed wilderness, while Edna Markley has the role of Jane Porter, the beautiful daughter of the rich American scientist on an exploring expedition in the wilds of Africa, where she meets and loves Tarzan.

#### PASTEURIZED MILK MEASURE IS URGED

A determined effort is being made to persuade the board of health to recommend the enactment by council of an ordinance requiring all milk sold in East Liverpool to be pasteurized before being put on the market. The subject was discussed at length last evening at a meeting of the board and an investigation started to determine if the proposal is wise and feasible.

At the meeting last night State Dairy Inspector D. B. Wagner reported that 40 or more dairies which sell their output of milk in East Liverpool are a first class sanitary condition. Of the three dairies reported as not being in perfect sanitary condition, two of the proprietors promised to "clean up." Against the third man who declined to obey the order of the health officer an information will be sworn out before Mayor J. S. Wilson.

### "THIRD DEGREE" AT AMERICAN TODAY

Viciousness of the one-time prevalent police inquisition known as the "third degree," under which, by physical and mental torture, confessions were wrought from hapless prisoners regardless of innocence or guilt, is most vividly portrayed in "The Third Degree," Vitaphone's big production starring Alice Joyce and which will be seen in the American tomorrow and Wednesday.

All the tremendous dramatic force

of the stage production of this famous Charles Klein drama is retained in its picturization by Vitaphone, under the direction of Tom Terriss, and make it one of the most pretentious and forceful screen productions ever put out.

Miss Joyce takes every advantage of the dramatic possibilities in the role of Annie Sands, waitress, who crushed the power of her millionaire father-in-law and of the police system to free her college husband, doomed to a murderer's death for a crime of which he was innocent, but accused in malice for marrying the girl.

The beautiful Vitaphone star never was more appealing, and she has the support of a cast of exceptional strength, including Gladden James, Anders Randolph, Miss Hedda Hopper, Herbert Evans, George Backus, J. T. Wade, L. Rogers, Lytton and Edward McGuire.

#### PARENTS SEARCH FOR LOST CHILDREN

Has anyone heard of little Jimmie Glass? The child disappeared many years ago, yet his parents are still searching for him anxiously. His is one of the most noted cases of disappearance in this country. Hundreds of clues were followed in a vain endeavor to find him. Mr. and Mrs. Glass have traveled all over the United States in their efforts to trace their little son. At one time there was a rumor that gypsies had kidnapped him, and every gypsy camp in the country was searched—but in vain.

#### "ROMANCE OF TARZAN

##### AT CERAMIC TODAY

Featuring the same remarkable cast of players who made "Tarzan of the Apes" one of the outstanding film triumphs of recent years "The Romance of Tarzan," which dramatizes the concluding chapters of Edgar Rice Burroughs' great story of jungle life, opens a two-day engagement at the Ceramic today.

More startling and spectacular than "Tarzan of the Apes," of which it presents the concluding chapters, "The Romance of Tarzan" in the judgment of various New York and Chicago critics who have reviewed the new screen version of Edgar Rice Burroughs' fascinating story of primitive life. It is in seven parts, and

in addition to the remarkable novel of its theme, offers the eye a rare treat with scenes of natural splendor, amid which wild animals and equally savage cannibals are shown in all their primitive strength and cruelty. Elmo Lincoln again takes the part of Tarzan, the white ruler of this untamed wilderness, while Enid Markey has the role of Jane Porter, the beautiful daughter of the rich American scientist on an exploring expedition in the wilds of Africa, where she meets and loves Tarzan.

#### PASTEURIZED MILK MEASURE IS URGED

A determined effort is being made to persuade the board of health to recommend the enactment by council of an ordinance requiring all milk sold in East Liverpool to be pasteurized before being put on the market. The subject was discussed at length last evening at a meeting of the board and an investigation started to determine if the proposal is wise and feasible.

At the meeting last night State Dairy Inspector D. B. Wagner reported that 40 or more dairies which sell their output of milk in East Liverpool are a first class sanitary condition. Of the three dairies reported as not being in perfect sanitary condition, two of the proprietors promised to "clean up." Against the third man who declined to obey the order of the health officer an information will be sworn out before Mayor J. S. Wilson.
